A WEBLYTICA CO-BUILDING OFFER

The AI Email Assistant

The inbox eats the first two hours of most owners' days. We set up AI that sorts what matters and drafts replies in your voice, so **you review and send instead of staring at a blank reply.**

HOW THE OFFER WORKS

1 Sort What Matters
AI learns to separate the emails that need you from the noise that does not, using your own rules.

2 Teach It Your Voice
It learns how you reply from the emails you have already written: tone, length, sign-off, all of it.

3 Draft, Never Send
Replies appear as drafts waiting in your inbox. Nothing goes out unless you read it and hit send.

4 Make It a Morning Routine
You open a sorted inbox with drafts ready. The morning email hour turns into fifteen minutes.

WHAT IT HANDLES, WHAT STAYS YOURS

What It Handles

- Routine questions that have a standard answer
- Scheduling, follow-ups, and confirmations
- The first draft of the hard replies

The volume, handled.

What Stays Yours

- Every send: you review before anything leaves
- The judgment calls and the relationships
- The final wording, every time

Assistance, not autopilot.

WHAT YOU WALK AWAY WITH

- ✓ An inbox that sorts itself by what actually needs you
- ✓ Full control, because nothing sends without you
- ✓ Drafts in your voice waiting when you open email
- ✓ Your mornings back for the work only you can do

HOW SESSIONS WORK

Live working sessions over screen share, in your own inbox with your real email. **You drive the keyboard, we guide the way,** and you approve every rule it follows. No technical background required.

Ready to Tame the Inbox?

We build with you, not for you.
