A WEBLYTICA CO-BUILDING OFFER

The AI Ground Rules Workshop

Your team is already using AI, with or without a plan. One workshop gets everyone safe, confident, and pulling in the same direction. **We run it live with your whole team,** on the AI you already have.

HOW THE OFFER WORKS

1 Set the Ground Rules
Together we decide what AI is for in your business, what it is not for, and who decides the gray areas.

2 Learn What Never Goes In
Customer data, financials, passwords: the team learns what stays out of a chat and why it matters.

3 Practice Prompting That Works
Everyone works a real task from their own job, live, and leaves with prompts they will actually reuse.

4 Leave With a Written Policy
We turn the session into a one-page AI policy your team helped write, so people actually follow it.

WHAT ONE SESSION CHANGES

What the Team Learns

- How to prompt for useful answers the first time
- What is safe to share and what never is
- When to trust AI output and when to check it

Confidence replaces quiet guessing.

What the Business Gets

- A one-page AI policy in plain English
- Shared habits instead of fifty private workarounds
- A team that asks better questions of its tools

One session, whole-team alignment.

WHAT YOU WALK AWAY WITH

- ✓ A written AI policy your team helped create
- ✓ Safe-use habits that protect your customers and your books
- ✓ Hands-on prompting practice on real work from real jobs
- ✓ A shared starting point for everything AI that comes next

HOW SESSIONS WORK

A single live workshop over screen share, built around your team's real work. **Everyone participates, nobody just watches,** and the policy draft is finished before we log off. No technical background required.

Ready to Get Your Team on the Same Page?

We build with you, not for you.
