A WEBLYTICA CO-BUILDING PROGRAM

Vibe Code Your Own Website

Learn to design, build, and launch your own website with Claude AI. **You do the building on your own screen, and we guide every step.** When your site goes live, you already know how to change it, because you built it.

THE FOUR STEPS

1 Create Your Design Template
Capture your brand with Claude as a design system: colors, fonts, and the look of every section. Every page you build matches it.

2 Mock Up the Site
Claude turns that design into a real mockup you open in your browser. You see your actual business on the page in the first session.

3 Refine Until It Is Ready
Work the mockup until the homepage and two or three inner pages say exactly what you want, in plain English.

4 Launch and Keep Control
Convert the mockup into your real website, static or WordPress, with AI connected so you make changes from day one.

CHOOSE YOUR LAUNCH PATH

Static Site on Cloudflare

- Plain HTML with no database, so there is nothing to hack and nothing to update
- Loads in a blink and hosting costs next to nothing
- Edit content right on the live page with the Website Sidekick extension, and every save publishes automatically

Best for marketing sites that need speed, security, and low upkeep.

WordPress With AI Built In

- The familiar WordPress dashboard on your own hosting
- Claude connects directly to your site to create pages and update content when you ask
- Room to grow with the plugin ecosystem: blog, forms, bookings, membership

Best if you already run WordPress or need its ecosystem.

WHAT YOU WALK AWAY WITH

- ✓ A live website on your own domain: homepage plus two or three inner pages
- ✓ An AI workflow for edits, so changes take minutes instead of support tickets
- ✓ A reusable design template that keeps every future page on brand
- ✓ Full ownership of your code, your content, and your accounts

HOW IT WORKS

Live co-building sessions over screen share. **You drive the keyboard, Claude does the heavy lifting, and we guide every step.** No coding background required.

Ready to Build Yours?

We build with you, not for you.
